TARGETING SENIOR LEVEL ASSIGNMENTS IN: | Software Development |

Core Competencies

Strategic Planning & Execution

Software Development Lifecycle

Coding Techniques

Debugging & Troubleshooting

Agile Methodologies

Project Management

Team Building & Leadership

Training & Knowledge Sharing

Cross-functional Coordination

Client & Stakeholder Management

Soft Skills

Decision Maker

Collaborator

Attention to Detail

Team Player

Problem Solver

Planner

Accomplishments

- ➔ Received appreciation from clients and stakeholders for successful delivery of projects

Profile Snapshot

- ➔ Performance-driven professional with over 11 years of rich & extensive experience, including **over 5 years as a Software Developer and over 6 years in the IT industry, with a focus on JAVA and J2EE technologies**
- ➔ Currently employed as a **Software Engineer at US Technology International Pvt. Ltd., Hyderabad**, working on **enhancing application modularization and implementing functionality changes**
- ➔ **SDLC Specialist** with excellence in gathering and understanding requirements of stakeholders (at strategic and tactical levels), followed by translation into functional specifications as well as provisioning of suitable solutions
- ➔ **Fast-forward Project Acumen** with exposure in swiftly completing projects with competent cross-functional skills and ensuring on time deliverables within pre-set parameters; rolled out **Agile Practices** in teams
- ➔ Showcased proficiency in **developing web-based applications using Spring Boot** with Micro Services, Spring Boot configurations, Restful web services, OAuth, JWT Token Auth, Swagger, Spring Batch, Actuator, GIT Hub, & other Spring Boot Modules
- ➔ Successfully **developed applications automated using Jhipster configurations of Micro Services, Gateway, Registry, Entities**, and Kubernetes cluster configurations using Docker in the current role
- ➔ Possess strong expertise in **Restful Web Services, JavaScript, jQuery, JSON, and basic Angular**, along with extensive knowledge and experience with Hibernate ORM and JPA implementation
- ➔ **People Leader**, who has successfully led and motivated team in cross-cultural environment towards growth and success in the organization; created a clear & compelling view of future through training and knowledge sharing
- ➔ **A strategist and implementer** with recognized proficiency in spearheading business to accomplish corporate plans and goals successfully

Education

- ➔ **Master of Computer Applications (MCA)** from S.V. University, 2009
- ➔ **Bachelor's Degree in Commerce** from Osmania University, 2007

Technical Skills

- ➔ **JAVA/J2EE Technologies:** Java, JDBC, Servlet, JSP
- ➔ **Framework:** Hibernate(ORM), Springs, Spring Boot with Microservices, Angular, Jhipster
- ➔ **Web Programming:** HTML, JQuery, Nodes JS, Express JS
- ➔ **RDBMS:** MySQL, Postgres Database, MangoDB
- ➔ **Application/Web Server:** Apache Tomcat, JBoss, Jasper Reports, Redis Cache
- ➔ **IDE:** Eclipse, STS Suite
- ➔ **Build Tool:** Maven
- ➔ **Cloud:** PCF, Kubernetes cluster with Docker

Employment Details

Since Mar'22 with US Technology International Pvt. Ltd., Hyderabad as Software Engineer

Oct'19 to Feb'22 with LVG Wellness Pvt Ltd., Hyderabad as Software Engineer

Dec'18-Sep'19 with Dhanush Infotech Pvt Ltd., Hyderabad as Software Engineer,

Jun'14 to Jul'18 with Dialuz Online Advertising Pvt Ltd, Hyderabad as Software Engineer

Nov'12 to May'14 with Dialuz Online Advertising Pvt. Ltd., Hyderabad as Network Administrator

Feb'12 to Aug'12 with M/s. CMC Ltd. (Client TCS Passport Seva Project) as IT Engineer

Mar'10 to Jan'11 with M/s. ZY Marine Pte. Ltd. as System Administrator

Dec'09 to Feb'10 with M/s. Shiva Computers, Hyderabad as Network Lab Coordinator

Role Across the Career:

- ⇒ Instituting & executing High level project strategies, making decisions and overcoming complex business challenges using experience-backed judgment, strong work ethics and irreproachable integrity
- ⇒ Collaborating with Stakeholders while keeping them informed of progress and issues in order to manage expectations on all requirements and deliverables
- ⇒ Creating & sustaining a dynamic environment that fosters the development opportunities and motivates the high performance amongst team members
- ⇒ Actively participating in review meetings with the team to discuss about the progress of projects as well as for identifying gaps and suggesting effective solutions for the same
- ⇒ Administering efficient working of project lifecycle within required management services such as managing end-to-end delivery / program / project planning & implementation from scope management, to activity sequencing, effort & cost estimation, risk analysis to quality management in line with the guidelines & norms
- ⇒ Partnering with various levels including top management across the organization to develop/ commit resources, communicate global objectives, and produce standards & procedures; facilitated process improvements, efficiency / time saving for business units
- ⇒ Interfacing with clients for business requirement gathering, conducting system analysis and finalizing technical / functional specifications
- ⇒ Defining the vision of the product and created a development/technological/product roadmap to reach that vision in a step by step manner and also stay updated with the progress at each stage in the road map
- ⇒ Played a pivotal role in sprint planning to understand and prioritize the scrum product backlog items with the Scrum product owner and define the details to team of the committed items going to be implemented

Current Project

Project Title: Cotiviti

Role: Team Member

Tools and Software & Frameworks: Spring Boot with Micro Services and Configurations, JPA, Restful web services, Jasper Reports, Cache, Batch, Angular

Period: Mar'22 – till date

Description: Developed an Enterprise Content Library post-discovery portal to improve healthcare through advanced technology, data analytics, and specialized expertise. Implemented new rules and ideas, settled claims, and improved health policy, plans, and packages

Responsibilities:

- ⇒ Enhancing application modularization and functionality, ensuring seamless integration of different modules and improved user experience
- ⇒ Implementing user stories and fixing defects reported by QA analysts, contributing to the overall improvement of application functionality and user experience
- ⇒ Analyzing and resolving application-related issues, maintaining system stability and optimal performance

Personal Details

Date of Birth: 21st August, 1986

Languages Known: Telugu, English, Hindi

Address: Hyderabad-500041

ANNEXURE

PREVIOUS PROJECTS UNDERTAKEN

Project Title: Ayurway

Role: Team Member

Tools and Software & Frameworks: Jhipster Automation Tool Spring Boot with Micro Services and Configurations in Web MVC, JPA, Restful web services, Keycloak Tool, Angular, Kubernetes, Docker

Period: Nov'19 – Feb'22

Description: Developed an online doctor consultation platform with video conference features, digital wellness management, and online sales of Ayurveda products. Implemented doctor appointment booking, member collaboration, and wellness programs to improve health and productivity.

Responsibilities:

- ☞ Utilized Jhipster automation tool to develop the application, streamlining development processes and reducing development time
- ☞ Developed Spring Boot with Microservices and different modules, ensuring optimal application performance and scalability
- ☞ Configured Kubernetes cluster using Docker, maintaining system stability and optimal performance

Project Title: MWMIS (National Health Mission)

Role: Team Member

Tools and Software & Frameworks: JSE, Angular7, Spring Boot with Micro Services and Spring Boot configurations in Web MVC, JPA, Restful web services, Spring Boot Admin, Actuator, Netflix Eureka Server, Zuul Webserver, Pivotal Cloud

Period: Dec'18 – Oct'18

Description: Automated processes related to women's healthcare, childbirth, and newborn care. Stored and retrieved patient records, facilitated skilled care, and improved access to high-quality healthcare services.

Responsibilities:

- ☞ Developed the application using Spring Tool Suite, ensuring seamless integration of different modules and improved user experience
- ☞ Configured Eureka Netflix server for service registry and ZUUL server for proxy, maintaining system stability and optimal performance
- ☞ Coordinated with team members and presenting weekly status updates to clients, maintaining transparency and building strong client relationships

Project Title: SADDLY

Role: Team Member

Tools and Software: JSE, JSP, Servlets, MySQL, Restful Services and Apache tomcat

Frame Works: Hibernate and Spring MVC

Period: Jun'17 – Aug'18

Description: Developed an online recharge platform for telecom operators in Saudi Arabia. Enabled gift card purchases, money transfers, and advertisement posting services.

Responsibilities:

- ☞ Developed JSPs for the presentation layer, ensuring seamless integration of different modules and improved user experience
- ☞ Implemented server-side programming using Spring MVC, maintaining system stability and optimal performance.
- ☞ Deployed the application on the Tomcat Application Server, ensuring seamless integration of different modules and improved user experience
